Who I Am

A Software Engineer with a **problem-solving** mindset and a **quick learning** ability. I am **dedicated** to my work and I do my best to get good **results** on **time**.

What Do I Know

• **Web Technologies** - HTML, CSS, JavaScript, ES6, jQuery, AngularJS, Angular 4, NodeJS, ReactJS, ElectronJS, PWAs

• **Backend Technologies** - C/C++, C#, Java, Ruby, Python

• **Frameworks** - Java Spring, Java Jersey, Hibernate, Ruby on Rails, MVC

• **Database Technologies** - MsSQL, MySQL, PostgreSQL, MongoDB

• **Version Control** — GIT, SVN

What I Can Contribute

• I am an **active coder** and can code in **any technology** stack you want me to work with.

• I can help in setting up the right atmosphere for the workplace by bringing in **positive attitude** and energy.

• Need a hand in **Training** resources or delivering quality **presentations**? You got it.

What Do I Want

• I want to work at such a place where I can **leverage all my skills** to bring the best out of myself

• I want to work on **multiple/different** things to put my time to best use

What I've Done

Sr. Software Engineer Cyber Group India
April 2018 - Present Noida, UP

• Recently got promoted, motivated to do better in the coming year.

Software Engineer Cyber Group India
January 2017 - March 2018 Noida, UP

• Worked majorly on a Boutique Dashboard for Francescas that lets the business manage their boutiques located across the US. Also led the Promotions Application for the same client. It helps in creating BOGO, %Off etc. type promotions for the stores.

• Technical stack for Boutique Dashboard was AngularJS, Java Jersey, MS-SQL. For the Promotions Application, it was ReactJS, Java Spring Boot, MS-SQL. I worked end to end on both the applications, Boutique Dashboard was built from scratch while Promotions Application was an enhancement project.

• This was my first professional job after two internships with the same organization. Learned a lot about work and life during this period.

What I've Studied

Bachelor of Technology Computer Science
Maharshi Dayanand University 2013 - 2017
